

### Insulation Resistance Tester AN9671(F) Series

- ★ **3-in-1:** Compact: 2U high, 1/2 standard chassis width
- ★ **High precision:** 1% basic accuracy
- ★ **High speed:** fastest 0.5s test, simple operation

#### Product Introduction

Ainuo AN9671B(F)/AN9671X(F) insulation resistance tester features compact, light, rich interfaces, and is suitable for desktop testing, system integration and other operating conditions. This series of products have RS232/RS485/LAN/USB/PLC and other interfaces, meeting the needs of intelligent manufacturing and industrial upgrading in the electrical manufacturing industry.

#### Features

- **Safe and reliable**
  - ▶ Nearly 30 years of safety testing expertise and understanding of customer needs;
  - ▶ Complete electromagnetic, environmental, load, operating conditions, fatigue test verification.
- **Convenient and efficient**
  - ▶ Touch screen: unique keys + touch screen, easy to operate;
  - ▶ Flexible configuration: rich functions, multi interfaces and various models.
- **Light and durable**
  - ▶ Compact: suitable for system integration and desktop use.
  - ▶ Rich interfaces: RS232, PLC, USB, LAN (optional).

#### Specifications

Model	AN9671B(F)	AN9671X(F)
Insulation Resistance (IR)	2.5kV/50GΩ	1kV/2000MΩ
Insulation voltage basic accuracy	1%	2.5%
Display operation	5" color LCD touch screen, functional keys	Character VFD display, functional keys
Operation interface	RS232/PLC/USB/LAN (optional) interface	RS232/PLC interface
Dimension W×H×D(mm)	213 × 88 × 460	320 × 110 × 400
